

# ENERGY INDUSTRY

Meptagon's construction division has won an instrumentation project for the construction of an integrated power station in Ashdod.

For 12 months and with over 15,000 injury-free working hours, the project was extremely complex and was executed under a very tight schedule. We carried out a perfect installation to the complete satisfaction of our client.

#### Activities:

- Instrumentation supply
- Infrastructure
- Cabling and wiring
- Installation of equipment
- Sampling Instruments
- OFA (oil free air)
- Commissioning
