

## LOGISTIC AREA

One strategic customer, from the bio-pharmaceutical industry, satisfied with the delivery of a new logistics center in Jerusalem, which includes offices, a unique cold room running at minus 30°C and a 550 square meter temperature and humidity controlled storage area.

We entered during the shell phase and handed it over to the client ready for OQ (Operational Qualification).

**Meptagon Management Division** carried out the operation as the general contractor (GC). Our experienced team managed more than a dozen subcontractors with all the budgetary, scheduling and quality and safety issues involved.

**Industries:** All Industries.

**Satisfied Clients:**  
Israeli Bio-Pharmaceutical client.
