# MEET MEPTAGON GROUP

Meptagon Group provides a one stop shop for industry's needs and integrated project services. We execute multi-disciplinary turnkey projects worldwide, through our five divisions:

- Management
- Design & Engineering
- Construction
- Agencies
- Subsidiaries

Meptagon employs more than 450 people with various skills. Each division in the group has unique requirements and employees are carefully selected in order to complete their tasks meticulously. However, the ability to share knowledge among employees and further enrich the capabilities of their peers is a core strength of the Meptagon Group, which is unmatched in the industrial world today. Meptagon's employees are our, and our customer's, most important resource. Every day our employees serve our customers in a loyal, professional and fair manner, in order to fulfill the company's vision.

# WHY US? IT'S SIMPLE.

With its strong client-focused orientation, Meptagon delivers creative and customized solutions for varying technological and commercial requirements. The capability to deliver all of these services with single-point responsibility in a timely, professional and cost-effective manner, together with first-class quality and safety requirements, have resulted in many successful projects that often surpass client expectations. It's no wonder that around 90 percent of the Meptagon Group's projects are initiated by returning clients.
